

AWE55AU | Targus Lap Chill Mat

The Targus Lap Chill Mat provides a comfortable and ergonomic work surface to keep you and your laptop cool. The Chill Mat rests on your lap and disperses heat, using dual fans to provide ventilation which can be obstructed if the laptop is used on a pillow or comforter. Simply plug the USB connector into the laptop to activate cooling. The ergonomic tilt makes typing easy while the soft neoprene material provides cushioned comfort on your lap. The open design allows fans to run quietly and stimulates constant airflow. Four adjustable rubber stops on the face of the Chill Mat prevents the laptop from slipping. The Targus Lap Chill Mat makes using your laptop a more enjoyable experience.

Protects lap or work surface from heat

Dual fans help disperse laptop heat for improved functionality; extends the life of the laptop

Soft neoprene exterior provides added comfort on your lap

Rubber straps to create the right fit for different sized laptops
