

Neo-Flex[®] Mobile MediaCenter

Ultra-flexible platform for technology deployment

- Video conferencing
- Classroom presentation
- Digital signage
- Touch interactive

Deliver **classroom content** dynamically and projector-free.

Mobilize **touch displays** and make them height-adjustable so everyone can easily interact with them.

Mobilize your expensive **video-conferencing** hardware for cost-effective virtual field trips, highly qualified teacher delivery, collaborative learning and remote meetings.

A flexible, economical tool for delivering **wayfinding, signage and informational content** throughout the campus.

Productivity. Wellness. Balance.
Feel the difference.

Highlights

- Move digital signage and images to where you need them
- Rotate your display to portrait or landscape orientation—no need to reinstall display
- Optional camera shelf accessory converts any space into a videoconference center
- Easily roll cart through standard-size doorways and over thresholds
- Narrow footprint allows presenter to move closer to the display; easily tucks into corners or nests with other carts for space-saving storage
- Constant Force CF technology enables smooth, effortless portrait-to-landscape rotation, tilt and height adjustment. Adjusts with just a touch—no knobs or levers
- Modular cable management channels conceal and organize cables
- Maximize your technology investment by sharing a large display over multiple rooms
- Second-generation design and 47 separate quality tests ensure reliability and optimum performance
- Speedy assembly and installation
- Complies with UL Tip Standards 1667 and 1678
