

## USB-C to DVI Adapter Cable - 2m (6 ft.) - 2560x1600

StarTech ID: CDP2DVIMM2MB

This USB-C™ to DVI adapter cable offers a convenient solution for directly connecting your DisplayPort over USB Type-C™ device to your DVI-I monitor, television or projector.

The adapter supports a connection distance of up to 2 m (6 ft.) and works with USB-C devices that support DP alt mode, such as the MacBook, ChromeBook Pixel™ and Dell™ XPS™ models 15 and 13. It's also compatible with Thunderbolt™ 3 ports.

### Clutter-free installation

At 2 m (6 ft.) in length, the adapter cable delivers a direct connection between your USB-C device and your DVI monitor. This means you don't have to use additional adapters or cabling, which helps ensure a tidy and professional installation. For shorter installations, we also offer a 1 m (3 ft.) USB-C to DVI cable, enabling you to choose the right cable length for your custom installation needs.

### Hassle-free connection with USB Type-C

The USB-C to DVI adapter cable is easy to connect, through the versatility and convenience of the USB Type-C port on your device. USB-C is a reversible connector, so it doesn't matter which way you plug it in, the adapter will always connect. This saves you the frustration of trying to insert it correctly when you're docking your computer to your workstation or office hot desk.

### Crystal-clear picture quality

The adapter harnesses the video capabilities that are built into your USB Type-C connector to deliver video resolutions up to 2560x1600, providing full dual-link support for your high-resolution DVI monitors - great for multitasking on high-resolution DVI displays. The adapter is backward compatible with 1080p displays, which makes it a great accessory for home, office or other HD work environments.

The CDP2DVIMM2MB is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Note:

Your USB-C equipped device must support video (DP alt mode) to work with this adapter.

### **Applications**

- Connect a USB Type-C computer to a DVI projector or display in your classroom, auditorium or boardroom
- Install at your home workstation or office hot desk to make your USB-C computer compatible with your DVI display

### **Features**

- Reduce clutter with a compact 2 m (6 ft.) adapter cable
- Hassle-free connection with the reversible USB-C connector
- Crystal-clear picture quality with support for video resolutions up to 2560x1600
- Plug-and-play installation
- No power adapter required
- Thunderbolt 3 port compatible
