3U 19in Steel Vertical Wall Mount Equipment Rack Bracket

StarTech ID: RK319WALLV

The RK319WALLV 3U 19in Steel Vertical Wall Mount Equipment Rack Bracket offers a versatile storage solution, allowing equipment (Network devices, power strips, patch panels) to be mounted vertically (flush with wall) to save space. Alternatively, the 3U bracket can be installed under a desk for horizontal installation, making it easy to access installed equipment directly from your workspace.

Constructed to EIA-310 19in rack standards, the wallmount bracket features a sturdy steel design, perfect for SoHo (small office, home office) environments. The wallmount bracket offers space-saving installation for environments lacking the footprint space for a full size server equipment rack.

Suitable for mounting on virtually any wall/ceiling surface (e.g. drywall), the bracket mounting holes (used to mount to a wall or the desk underside) are positioned at exactly 16in apart, matching standard construction framework.

Backed by a StarTech.com lifetime warranty.

Need more storage space? StarTech.com also offers a 1U 19in Wallmount Bracket, a 2U 19in Wallmount Bracket and a 4U 19in Wallmount Bracket.

 Applications

- Mount networking and telecommunication equipment flush against the wall
- Mount KVM switches or workstations under a desk or work bench to free up work space
- Ideal for small and medium businesses needing rack solutions

Features

- Constructed to meet the EIA-310 19" rack standards
- Arrives fully assembled with cage screws and nuts for mounting equipment into the rack
- Equipment can be vertically wall mounted, or horizontally under a desk
- Compatible with most 19" rack mountable equipment
- Made from solid steel for durability
- Wall mounting holes are 16" center to center for greater stability, and mounting to standard wall studs
