

20in Slimline SATA Extension Cable

StarTech ID: SLSATA20EXT

The SLSATA20EXT Slimline SATA Extension Cable features one Slimline SATA male connector and one Slimline SATA female connector, allowing you to extend the distance/placement of slim SATA drives within a tower style computer case by 20in - in turn making it easier to position your Slimline capable peripherals (drives etc.) as needed.

Constructed of only top quality materials and designed for optimum performance and reliability the SLSATA20EXT supports full SATA 3.0 bandwidth (up to 6Gbps) when used with SATA 3.0 compliant drives and is backed by our lifetime warranty.

Applications

- Extend your Slimline optical drive connection by up to 20"

Features

- 1x Slimline SATA Plug
- 1x Slimline SATA Receptacle
- Supports full SATA 3.0 6Gbps bandwidth
- Compatible with Slimline SATA optical drives
